SUMMARY KEYWORDS

month, business, mixer, primerica, years, money, seniors, call, thompson, good, website, account, meeting, day, post, bob, move, pay, town, shed

SPEAKERS

Daniel Bennett

00:00

Okay, this meeting to order at 531. Okay, so as I'm gonna change this on here, because everybody just knows that the way we don't have a secretary if somebody wants to be the secretary, that would be fabulous. But we, in the meantime, we're doing it by recording right here with my phone and recording it. So we post that a week ahead of time when we post the minutes or when the agenda when we send out the email there's a link in there so you can listen or read the minutes from last month, but it's literally a recording so it's the whole hour and a half. So I guess there's really not a need to improve because in arguing it's a recording, right? So anyway, but yeah, right. Exactly. So anyway, the meeting, the minutes are approved last month. We're done with that nonsense. Okay, three, three new members this month. So animal care experts. I don't think anybody's here from there, right

01:08

but no, I did. I emailed her earlier, but I think she didn't say she might not make any money so

01:15

Okay, yeah. But and Milltown grill I know we mentioned this last month, but that's official. It's all in the books and we're doing the mixer there next week. So Milltown grill and then Ali Mac marketer and this is Ali right here. So she's also taken on the honors of doing our Facebook posting. So we've seen some pretty big improvements. We'll talk about that in a minute, in a few minutes. And so

01:52

I don't have any code of ethics. No, I don't have I don't know I don't. I do have money, so I'm just gonna have to do that. Next time. I don't have it right now. My iPad. Okay, did everybody sign in and put your business card in the box for business of the month? We get that done. And

while you guys are finishing that up, we'll start with our 45 seconds. Do we have a timer? And we're gonna go around the room and talk for 45 seconds about your business. Tell us how we can help you whatever you want us to know. So you're in the hot seat tonight Ali.

02:38

Hi, I'm Ali. I started as alipac marketing and I've since expanded into Alibag at Ciani consulting, I do take out a partner. I do marketing anywhere from social media management to you know, assisting you finding the right way to get up in front of the right audience as well as making sure you're learning while you're growing. Thank you,

03:01

Vicky Viki both of you. Let it rip. I'll give it a shot.

03:06

My lovely partner fits on that this one, Victoria. We were with primerica financial services were licensed in the whole New England to help families, make money get money, save money, get out of debt, and pretty much plan out your financial futures. Basically without understanding our goals. We want to save you money and put you on the right track. To reach all your financial goals. And that's it do I have 10 more seconds? You have

03:40

a lemon? Okay.

03:45

So if you go on Facebook look for smolder and Bob. But just search smoldering Bob with no chi most of the plants. That's a well planned Yes. smoldering without

04:02

a Google search and go right to me. I gotta throw it in quick to Bob's also a good musician, guitar player. His band went inside his band play at glenties Tavern on what time is it in? It's in rhode island not far from here. It was good and good food there and these guys were killing it. It was a good time

04:22

and went down this Saturday night to Oh, that's right. You're back there. Five to stay alive, guys. All right. Sorry, James.

04:29

Let it rip. All right. Hi, my name is James Clark. My wife and I own outpatient mobile solutions. It's a physical therapy occupational therapy clinic that's mobile. So we bring the therapy and the equipment to patients homes. We started this couple of years ago right here in town started with just in Connecticut and now we do services also in Massachusetts, Webster Dudley all we have to through Worcester County. But right now we are. We see patients from post op post surgical traumatic rehab all ages and we've formed like a pretty simple pediatrics program too. So it works really well for busy moms that they can't bring their their kids to therapy will kind of fit that need. One other thing I do have any anybody knows any physical or occupational therapists? I didn't find a look into hire. So um, that's one just

05:30

after meeting, that's after all, what does that have to do that is trying to get more the occupational side. That's true. All right, email.

05:39

You're up.

05:41

I'm not talking to

05:43

you. Well, you got both two businesses.

05:47

You gotta buy clothes cleaning and painting services. The painting side. We do all residential commercial, interior exterior staining decks, power washing, all sorts of painting. So even done. Rice.

06:06

I have to do the cleaning side. Good job. Weekly, bi weekly. Try weekly, monthly. One times deep cleans, move in. Move out the states for the worse stuff home from estate. I love to barter. I don't know who told someone that in this group. But someone I believe in this group told someone else in this group that I like to garner. So yeah, call us briefly to reading these are amazing

06:35

website at flawless fitting and painting.

06:39

Shameless plug. Joanne

06:45

social services, services to folks from birth to seniors and everything in between. Always looking for mentors if anybody's interested in working with children called Kathy?

07:03

Hi, Kathy holiday express in Auburn and we're a hotel of course. And yeah, so we do a lot of business out here in Thompson. So if you know anybody is getting married or has corporate accounts, or we have corporate accounts, anybody business people that are traveling, that are going to be the area for a while that comes from often we do have discounts for them, for weddings for sports groups and just anybody that needs a hotel, or there thanks Mike. Yeah, yeah. They changed all. I always say a lot.

07:49

The limits that one usually takes you right to the nose. Yeah. Like toward self restraint. Do. Yes. Okay. That's all, Judy. Hi. Hi, Judy. Welcome back.

08:00

Thank you.

08:01

Love you Realty.

08:02

I've been out of the mix for a while and going to school to get my certification and selling commercial real

08:08

estate. And understanding that I'm gonna get into it that much, but it's there when needed. So, right now I have a big huge Victorian coming on the market, which she's helped me with she'd prefer us to somebody that does real cleanouts in auctions, because this guy had tons of stuff. It's kind of an interesting part of my business. You know, I see a lot of cool stuff.

08:34

This was really, really cool.

08:36

I loved his clocks, the clocks, the clock, The clock. Yeah, his dad was a clock.

08:41

You're gonna depart or not. Trouble with them.

08:48

Yeah, James James hearings

08:49

are not at the center of our time during and I saw that she was taken over the website

08:57

says Oh, Dan stepped down on the website. Well, oh, yeah, he's president and then it got around

09:05

are you gonna do what you just did reality right. So you're gonna do art and framing now.

09:13

Most agents have a side job. It's been my job for 45 years now.

 09:19
We do a lot of

 09:20
restoration preservation type stuff, acid 3d glass as well. So 99 degrees. It's fun. This whole thing's so both my jobs one thing I'd like to point on, I hope it's okay with everybody. Our Beltran is next weekend. Our son has to have a mental illness.

 09:45
I'm still looking for sponsors.

 09:47
So it's 100 bucks to sponsor

 09:48
gold. No big deal. Maybe it is up for the round table. Kristen Dubliners told us she has something for us. And I appreciate everybody's support. And we give money to students that are going into the mental health field because this is mental health awareness, awareness month. So we're trying to raise awareness that mental health mental illness is just about medication or whatever, that's what it's there for to help people. Unfortunately, the cracks

 10:26
so anyway, we put out \$30,000 So far in scholarship

 10:31
more this year. Thank you Kim.

 10:42
So we make a bunch of homemade soaps from scratch with coconut oil and olive oil and a bunch of other things like fat palms lip balm, to find this at the farmers market, usually in Patna on Thursdays from 330 to 530. And Saturdays tend to one and all the community events were usually somewhere during the

 11:00

11:03

year she is. Thank you.

11:08

Matt. snuck in the back and you put your name on the thing, business card and all that. All right. Bring that power

11:17

over the vinyl underground sign shop and Charles your one stop shop for all your signage and other needs plates and plates. Guys I really don't have any kind of answers here and this time of year is always a good time to talk about vehicle ever. If you own a business, your vehicle shouldn't be lettered in some way shape or form whether it's door 11 window lettering whatever your vehicle is your number one source for people to know that you exist. You're driving around every day, the 1000s that are on your vehicle every single day. If you don't have leverage on your vehicle and left we're in a place in doing yourself an injustice by not doing it because all you're paying for contemplates anyway so if you need vehicle enter

12:06

awesome Brian. Brian, so you know, be tech services auto interior repair, supposed to be retired but I'm not be close to music music and sing alongs for seniors and I chair the Economic Development Commission in town. I don't need anything

12:29

I'm Sandy from Kerrigan tech service. I'm so glad to be back again. I would see you guys in months. And I don't need anything.

12:41

More Clients for next year.

12:47

What I do need is somebody to come work for me. So next year. You know,

12:55

Oh, right. Okay. I'm Jody Erickson, owner of your pH today LLC. I do custom website design and development. I also optimize websites for search visibility. I provide ongoing maintenance and support and I do blog writing, and I didn't tell her that she barbers, but however I do border, so

if anybody's interested. Anyway, visit your page today.com. To learn more, we're always on the same page.

D

Daniel Bennett 13:20

My name is Dan Ben and I'm the owner of DVC solutions where we transform the space you live into a place you'd love to be in. And like one of our my favorite kind of job to do is a full home transformation. We're starting one of those in Woodstock or no in Pomper right now. And we so we we take a lot into consideration. We have a 12 page, home transformation guide that you can use to walk yourself through the process of what it takes to transform your home. So you have a better understanding there's there's a financial breakdown in there that explains to you for you to how to figure out what your house is worth now and what it's going to be worth after you do the transformation and does it make sense financially and all that good stuff. And the one that we're starting right now we just got the renderings back today. And like my favorite part is making just when you pull in the driveway after you spend hundreds of 1000s of dollars on your house you better you better make you happy. So anyway, we got the renderings back today and I guess present them to the client animator app. Awesome.

o

14:24

Thank you Okay, presentation time, we're gonna move out of the way. Bob and Vicki from primerica financial are going to do a 10 minute presentation for us. They graciously took the responsibility off my plate this month because I was on vacation. Didn't have time to do.

o

14:54

That get up there. Oh, shut the lights off

o

15:12

All right, so

o

15:12

welcome. It's nice to see everybody new faces and familiar ones. Bob and I had been with primerica financial services. We chose to work with them around 2013. I've been a client since about 2000. So because I've seen how this company has helped me out is one of the reasons I wanted to give it a shot and see if I could help people that blog became interested so we do it together. So our offices in Melbourne baths like I say this rip we could quickly I usually takes between that so primerica is the largest independent financial services marketing organization in North America. Well listed on the New York Stock Exchange as PRI approximately 2.7 million client investment accounts over 5.7 lives are insured through our life companies. And we are named one America's best insurance companies by Forbes magazine in 2022. We're very proud of these accolades because we've worked very hard. And then Bobby went to follow us. You went too fast and bad golf before. them were named number one most trusted Life Insurance

Company and number three most trusted financial property by Investor's Business Daily in 2022. Our mission is to help families earn more income become properly protected debt free and financially independent. How many people do you know, we'd like to achieve at least a couple of those goals, right. So how do we do what we do we educate people using our how many words concepts so that they can make informed decisions about managing their finance. Have a financial situation and primerica offers a variety of products and services designed to help people get properly protected get out of debt become financially independent. Timer All right. I was practicing this this app this afternoon. So are you protected from identity theft? That's one of the things we do about 2830 different things to help families and businesses. Do you understand the importance of your credit score? And by helping people with their finances, we help them we help them with their credit score. All right, have you ever considered how it would feel to be debt free? Alright, so one of the one of the reasons why we get a lot of referrals is because we're showing people how to become debt free without paying somebody to do it. So it doesn't cost you to learn how to do this. So thank God we have software that does all this calculation out in person, I stick it back. But anyways, so debt stacking, so on the left, you'll see some bills that people have credit cards, car, loan, mortgage, etc. Next to that, you'll see their minimum payments that they're going to pay every month. They're not going to add more money towards it, just paying the minimums, right. So if you look across the bottom, you'll see that the amount stays the same. All right. So what are they going to do? So they're going to pay the minimum every month but once that first credit card, you tell part is paid off. They're going to take the 220 and drop it down to the next one. So the 353 gets accelerated with money, they save not extra money putting on the debt. And as they pay each one off, they're gonna continue to do that. All right. So on the left hand side here in the light blue, if they stayed on the plan that they were currently doing on their own, it would take them 23 years to pay this debt off. They'd saved zero. All right, they were paid over \$214,000 in interest fees, right. And that's that, okay. Now, if they come over to the right and follow the plan that we provide for them for free, okay, they get out nine years, 14 years. I like to say younger, right? And they saved over \$130,000 they only paid about 84 and spending the same amount of money. Now once those debts are paid off if they took that 2720 And they invested it this is starting at like age 30 If they invested in pledge 67, and that money was earning an average rate of 9% They'd have \$2.4 million just by following this right. And as each debt gets paid off, you're gonna have a date. It's gonna tell you when those debts get paid off. This is amazing Bob and I have done this. And then 2019 We became debt free, including our mortgage because we do what we do what we teach. Alright, so there's a couple of bullet points that come from God as third party, right? The average American has over \$90,000 in consumer debt, including credit cards. personal loans, auto mortgage loans and student debt. Nearly half 40% of Americans had no life insurance coverage and 2021. All right, almost four and 10 Americans would have difficulty finding \$1,000 for an emergency, and about 25% of American workers have less than \$10,000 ins and retirement savings. 64% of workers live paycheck to paycheck, have things gotten better. Things got worse. Is that a trick question? No, I got it.

20:19

Well, we're right. All right.

20:22

I gotta make sure you're listening right? So we can help people in all areas. Right. So have you ever had a written program to get out of debt and retire financially secure? Yes, no. Okay. Well,

don't feel bad if you haven't, because most people have it. So how does money work? We take our money we put it in the bank, but the bank isn't keeping our money there. They take it out and they put it in the local local economy and they're investigate. So Coca Cola, Google Tesla, right. banks, credit unions, insurance companies equal historically or rates of return, which were great. Sure, it's all right. against the rule of 72. Please, notify. All right. Wrong button. Okay. Keep going. Alright, so the rule 72 This is called the vapors. You'll never see this on the front of the bank because they don't want you to know it. All right. So the rule of 72 is going to tell you the approximate amount of years it's going to take for your mind Java. All right. So if you could give me

21:23

a lot of interest. Ha, that's what the accumulative interest

21:27

is, yes. compound interest. So if if you put away \$10,000 When your child was born, let's say alright, you found a place that was earning 3% You divide the interest rate into 72, which is 24 hours and 24 years that we've grown to 20 and then wait another 24 years, and you'd have 40 but waiting 48 years \$40,000 It doesn't make sense. So what have you found the place earning 6%, right 6 billion to seven to 12. Now you have more doubling periods, you'd have 160 grand, but nobody can retire off 160 So why don't we can find a place that earns 12% my lovely husband here has these great licenses and securities. He found a place where it's gonna earn 12 Alright, so now that same 10 grand is gonna double every six years, that's two and a half million dollars. So if so, if you're on left, would you like to take your money, move it to the right. All right. That's what we help people to do. We teach them how these investments work. Now the banks are probably paying close to half a percent and savings account right now. We'll take 144 years to double and people just don't know this stuff. Okay, please go ahead. Alright, so one of the biggest investments people make is in life insurance. So this cash value versus buy term and invest the difference. So cash value is also called Whole Life, Universal Life, variable life and there's some other not important to write. Well, primerica teaches people to buy term and invest the difference. So on the left, we have John and Mary, and they sat down with a cash value agent, and they have now \$100,000 on each one of them. So you have \$200,000 worth of coverage and they're paying 235 a month for that coverage. The agent tells him part of that money is going to pay for their life insurance and part of that is going to go into the savings account called cash value because of time I'm not gonna go into that any further at the moment, but John and Mary heard about five and I so so they came over and we got together. So primerica doesn't ask how much you can afford. We find out how much you need and work from there. So we found out that John and Mary actually need to under \$50,000 on each one of them if God forbid something happened, so that's \$500,000 that we gave them for \$82 a month. All right, but we don't stop there. We saved up money. Right? So without spending more, we saved them. \$153 What if Bob Show them how to take the mind we saved them and invested it. So at age 65, they have \$282,000 versus 74. All right. So if there do you think they should stay on the left and move over to the right move out to the right right.

24:04

And that's assumina a 9% rate of return? Yeah. Not it's not super aadressive.

24:09

All right. So one of the one of the things that primerica does right? They teach people how to no longer need life insurance, right? Why should you pay for something you don't need? So when you're young alright, we cover people when they don't have money, right? They die too soon, or they live two locks on either ends of the Life Spectrum. We're going to help them have money, but somewhere along the line, we're helping them to build their assets so they can take their own money and take care of something as if something was to happen. That's called being self insured. So we get rid of life insurance when they don't need it. No other company is going to teach you how not to need that. They want to keep you paying for it. All right, so most people plan to fail. They don't fit, feels people don't plan to fail. They fail to plan Excuse me. So what the problem is traditional institutions will sell you products, they don't provide the total solution. So as a consumer, you're in the middle. Your money might be going to all those different places. If you call a person who represents all those places where your money goes and say to Hey, can you all come to my house Sunday night, sit at my kitchen table or jump on a zoom call and show me where I am financially? Is anybody gonna show up? Oh, no, no, no. Right. So we will we will be there right? So we provide a solution to financial needs analysis. It's complimentary, confidential, and it's a customized program that helps you achieve your goals and dreams. That isn't the most amazing tool but I haven't I have used it over and over again. And it's amazing what that will help you achieve in your financial life. If I show it to you, but we don't have the time on a scale of one to 10 Move it up a little bit, please a scale of one to 1010 being the highest. How would you rate your desire to become properly protected debt free and financially independent? Anybody else? All right, well, wow. All right. Go ahead. I didn't hit the last page. Yep, that's the last thing. All right. So we are looking for people because there's a lot of people that need to help in the areas that we help people with. So if you know somebody that's looking for a side hustle that's looking for something that maybe a career change, and they don't have any felons because you do background checks, you know, we'd like to talk to them and see if they'd be a good fit. And if it's somebody you want to work with. So I gave all the all you a hand all of you a handout, and if you can answer yes to any of those questions on the handout, we can help you all right. And we do a financial wellness workshop for business owners. This is awesome because you don't pay for us to come and we teach employees about money. And this helps the the employee and the employer to have a stronger business to have a strong relationship because they brought us in to teach them about money. Again, that's great. Okay. All right. And then the financial needs analysis. I have another brochure. 30 minutes can change your life. And that's really serious. It really good all right. And then lastly, we have one of the partners that helped primerica because we're more houses than any other company. This is called primerica secure so what this brochure does well if you do something with it, right, what it will do is you can use it call the number on the back they'll ask you for my last name and my solution that's all primerica identifies with us. Okay. You call the number on the back you have your home insurance, documentation in front of you and your car insurance, call them up and they will go through what you have and compare it with companies in your state. If they can save you money. Great. If they can't, you're probably paying good rates already. But Bob saved How much did you say when

27:53

you did it was \$180 a month?

27:57

Yeah, he had his son.

28:00

Kind of people. Hi, I bet 98% of people save money by just make it just

28:06

a phone call. That's it. So they don't do it often enough. Yeah. Because people think this will take and you don't save money by not checking.

28:15

Does anybody have any questions? Go ahead. Yes. So

28:20

if you're, if you're financially stable, let's say you don't have any debt. Would your services still help them Yes,

28:31

absolutely.

28:32

You know, the next

28:36

Oh, yeah. We deal with people that have two pages of data or people that have not yet because they could be they could have goals they wanted me to financially, they might have retirement questions. And Bob is so awesome when it comes to security. So he's good at a lot of different things. But this will give you peace of mind. So if everything if you want to know just if what you have in place is in the right place. I will tell you I had somebody call me today. They work with a company that's affiliated with primerica because we are affiliated with a lot of great companies. And they said, I said you know if what they suggest is going to be right when

we use it with Bob because it was a security question. We'll tell you stick with it because that's that's the right thing to do. So we'll give you peace of mind either way, or help you tweak it so no matter what, but I'm so glad that we do this. And thank you so much for this time.

 29:28

Yeah. I wanted to add one real quick thing to that too.

 29:36

For the EDC that scale up there, right 48 years to do that. And a lot of the scene here are 50 years old, and so you look at that and you go I'll be 100 Exactly Thank you like breathing. Thank you. That's exactly my point the best. Absolutely right. The best time to plant a tree was 20 years ago. The next best time is right now. Right. So that's my

 30:05

way, right? Yeah, just

 30:08

get you started. You need to decide.

 30:13

Oh, yeah, that's exactly what I need. All right. So we're moving on to Vice Presidents report. You want me to do

 30:28

I'll let you do that. Alright guys, so our marketing report, I email mixer event to the website. I added the ability for you to register for the event right online. And if no one got the memo on Facebook, I recently enhanced that ability so that if you choose to pay at the door, you can still register online and then choose pay at the door. You don't have to pay online. So break out your phones, scan that QR code and get registered if you want to go to this mixer it's going to be a great event. There's gonna be a lot of people there. So you're going to be cooking

 31:04

drinks more importantly

 31:08
I got cooking

 31:14
at Milltown grill on the grill outside.

 31:20
I can provide your spices. Really. I smell his

 31:25
food. I just don't knock on the door just

 31:31
you got my cookies.

 31:33
Yeah, they were narrowed down

 31:38
to the website search visibility is starting to increase a little bit. Last month we had our last report was over 200 visits. And then this most recent report was about 300 with an increase and there was about 980 Plus page views. So the biggest Google search result has been the maker sphere because that was like the biggest event in town recently. And actually the TBA website got a lot of hits on the TV and website for that keyword. So it's been it's optimized and the optimization is starting to work nicely. But I think more importantly and I'll stop there because the rest of this is self explanatory. You know register everything for the golf but Facebook is getting a lot of traction too. And I think that if we can start mentioning more about the website on Facebook and leading back to the website from Facebook, because what Facebook is getting so much traction, it's going to help increase the visibility on the website. So Dan, how's Facebook? All right,

 32:31
so posts most active map power like almost doubling DVC solutions with 17 posts in the last month. That's it. And then dBc solutions with eight the blissful Tea Party was seven Max catering was seven and rounding out the top five Sarah James with four but that wasn't with

your business that was just personal. Either way, they're their business posts actually.

33:04

Again, like we said last time guys if you'd like and share a post, like and share it from business like and share it from personal attraction.

33:13

Pepper plants.

33:16

We need to talk so and then also posted and commented This between posts and comments on this. This data is just from my iPhone before we started the meeting, but it's interesting to me. It was 151 people which is up 48% from last month and then people who viewed overall so obviously this is people that just it flashed in front of their eyes, not necessarily that they read it, but that was 5626 views up 6% from last year.

33:49

So I've had more time

33:54

so thank you, Sally. Yeah, absolutely. That's what it takes is engagement. So thank you, Ali. Now, okay, so you're good. Okay. So we're I'm Brian. Membership report.

34:14

Well, what we have last month we were up to 63 members this month. We have two more before tonight, and it'll be three more when Ali's official so that'll bring us up to 60 Sir.

34:37

And again, any new members that are here to get your listing on the website

34:46

Well, yeah, and the other thing I'm working on, I showed us a few months ago trying to fit everybody onto a brochure.

34:54

Call me that's what they did.

34:56

Well, that's what I do, too. I run a couple of car clubs and I'm in Publisher a lot. Just wanted to have something ready just something to hand out for the mixer on Tuesday. So So I have one the only thing is I'm working on another version of that we have room for the website so you guys have to

35:22

use TBI connect.com Because it's shorter than probably finance association.com And it'll give you if you put TV

35:28

a commercial coming forward to the longer yeah to the new logo

35:36

so yeah, that's it for now.

35:46

Okay, that's it. Sorry, I'm missing my cue here. Treasurer's Report. Sandy. Thank you.

35:56

Thank you. Let me tell you about some money. Okay. So in our main account right now we have \$4,027 and one penny. That's an outstanding check to why and why for \$80 for April. spot we spent about I think so far for the mix. We think we've spent about \$700 just FYI. I know but we haven't had a mixer here. So yeah, I got stuff that we can use over and over and over. So we can more your account has \$3,539.59 Less

36:35

ones 22 less when

36:39

you went shopping after I did that? Well, depending

36:41

on what time did it I was shopping.

36:43

I was probably like 415 this morning. This morning, no 415 This morning, so it's probably since I just want to tell you a couple things. We I don't know if remember. We had a matching donation from Gerardi insurance. They donated \$750 and our Bella insurance doubled their donation. So we got the \$1,500 from them. And yeah, yeah, we did get that this month and then I don't know if anybody knows Jessie's pups, but she's a groomer in Thompson and she does like pet sitting and stuff like that. Anyway, she ran a little she raffled off like an outdoor igloo, dog house and all the proceeds came to we can where was it?

37:32

No, what average was \$80? Okay, yeah. Can

37:36

we add sponsors to the weekend warriors page on the website? Oh, yeah, that would be cool. And then I'll tell you like when people Yes, information.

37:46

I had an in depth conversation with her. She's a very nice person.

37:51

I don't think she's taking she's

37:56

a member. She's one of our earliest members. Yeah.

37:59

Yes, wonderful.

 38:06

No, money. The Weekend Warrior backup account. I don't know if you guys know what that is. But we had created when the weekend warriors was being handled by a third party like the distribution, the spending of the money, we did not want them to have access to our whole funds. So we created this backup account, where I could just feed money into the spendable account. And so we'd have I still have it. Honestly, I'm not 100% Sure if we really even still need it now because we're all Well, yeah, we're kind of in control of it. So it's not super big deal. But it is there right now. We have \$12,609.57 in there. And school's almost over. Right. So we stopped spending money that we start Yeah, we stopped spending most of our money in Obama. So and then we have the golf tournament in September, which has been notoriously giving us 14,000 15,000 A year so then we'll be able to, we'll start September really high probably again. The Thanksgiving account has \$423.80 I spoke to Charlene about Thanksgiving. Last year we spent like 500 and something dollars so we're going to be a little short so Charlie is going to take control and like seek donations and stuff to make up the difference. We have yearly we have a dinner that we that we make like a gigantic Thanksgiving dinner at the Klinenberg Fire Department. Don't charge anybody anything. It's open to you don't have to live in Thomson is just open to the world. If you have a place to go. Thanksgiving you go there they feed about I think last year well, last year things was like 140 people Yeah, we have like 12 turkeys make turkeys we're always looking for help around that time. So I'll like sharing leads here I'll talk to you about it more than

 40:01

but no say they're always looking for help. But then when that happens, there's so many people want it. Yeah. Boom. Done.

 40:08

It's super fun. Yeah. And so what happened last year we needed help so bad. We are asking for help Everyday everyday and then all of a sudden literally I think it was stepped in and did everything but dollars. We didn't even need any help anymore. It was really nice. Are you cutting me off

 40:31

that was not for

 40:31

you. Thank you. All right. And then the golf tournament account currently has. I wish less than Chris were here because they would roll over because we have \$1,370.15 in there. We're transferring over like pens, the Pay Pal transfer is happening right now of \$120.15. And the reason like I wish they were here is because it's only what month we may never once have we

had more than \$500 in that account since it started and I wish Mr. French was here because he is kicking butt getting sponsors. For us this year. Another sign up. Yeah. So anyway, thank you. You're awesome. I've never been applauded for the Treasurer's Report for

 41:21

the bar you deserve. Oh the weekend warrior stuff we had talked a few months ago about helping out with seniors also. Yes. So I have been talking with Thompson Rec. We I volunteered for us before because they have they have a ton of records killing it with activities for kids and for seniors. They get bus trips, they have all kinds of sports to have my three year old grandkids are starting tennis, which should be that's worth a video I think I talked to them again let us know when we they want us to sponsor just the snacky thing for one of their get togethers. It because we the way we're structured we were okay to give money with seniors also.

 42:16

We we had gift brought we had I forget what we had eggs and something else brought to this. Do they have a dinner here? Or lunch here? Yeah, so we brought them up stuff

 42:31

to give away because we had extra

 42:32

Yeah, nice. Cool

 42:36

All right, I'm gonna win cheese report. No. Businesses usually no events coming up No.

 42:53

No blissful as their Sunday they're still getting their mother's day got moved to the White Room. No, Mr. Expert, she kinda was a little finicky about the event. So I got moved to Worcester so she was able to actually expand that now she's selling even more tickets. Anybody wants a Mother's Day tea party I only serve egg so you want to bring to your table we show all right. All right. Well, we're

 43:17

ahead of schedule then. No, oh, yeah. No, no tomorrow tonight, right. So we're ahead of

schedule. rockin and rollin here. We're back to Brian. We're back to Brian for Economic Development Report.

 43:34

Yeah, I don't have much new that's going on here as usual is working on grants and Sunderbans grants and our budget cut. Actually, it's cut in half over what it was three or four years ago. Well, it's the way it is. The big thing that we're working on is still what we call marketing of Main Street. We hosted the beginning of the month we hosted the group of Northeast commercial Realtors they had a monthly meeting and they move it around to different towns. We hosted them about six months ago also at Lauren Thompson Manor. And what we do is we just talk about what's going on in town and we had the Woodstock, EDC, unfavoured etc. kind of share some thoughts I'll be talking with other EDC chairs, especially with Pomfret. Well, Woodstock is similar to us as far as lots of land not much for business. We met at the former Jill and g is owned by Bob Fornia. And then we took a walk down Main Street to point out at the St. Joseph school which is going to be 40 single bedroom efficiencies. The superior bakery which is still in the works that it's sold, but it's not a total done deal yet. We looked at the house on 65 main which we hope to have a business incubator and we walked all the way down to the library actually and then it started to rain. And came down and no dig along the way. The sidewalks and the condition of the road and all that stuff that we want to bring up to actually look like a main street somewhat. So that's that's our one of our big focuses this year. We had I think three new businesses I forgot to bring the names that registered with the town which I handed to Dan and he called them and invited them to the mixer. Said

 45:51

I'm not listing new people.

 45:55

Yes, probably see they got a list of new businesses for the last couple of years to invite to the mixer. This is not businesses for TVA, it's ones that register with the town may or may not be here yet. So that's all I can think of right now. I forgot to bring in the minutes, which helps my memory so we can we can move on. Okay, unless there's any questions.

 46:21

They don't have to repeat business in town, right?

 46:25

They can be anywhere.

 46:28

11 46:20

Oh no, no Lord open. Last year we met a lot of nice people. Yeah, we had a really good crowd people who promised to join and didn't some, some promise to join them.

11 46:40

When they when they promised to join this year. I'm gonna grab them by the year and pull them over to the table.

11 46:45

But it's still nice to make contact and do some networking. Yes, there's no obligation if you want to invite people

11 46:52

No, no, there's no obligation this year I just said Oh, yeah

11 47:01

I plugged shamelessly my my

11 47:04

plan. Are you Is it okay to

11 47:07

like to post on the like to also promote the other gigs we have like is I mean we have a primary. But is it okay that you know, hey, here's I do this. Do that then Yeah. And just post things about that on?

11 47:20

You know, that's a good question because we don't let other businesses post on Facebook page to be a member right? Oh, yeah. Right.

11 47:30

Since I'm a member it does that allow us to show us that.

47:35

It is kind of a rabbit hole. Yeah. Because I know that we have membership for you know, you can register your business and then you can have a second business that you you know what I mean? Right if you're paying for membership for two businesses, they absolutely yes. Yeah, yeah. It's half price, right. I mean, is it less than yes? No, no. I don't I don't want to stop

47:59

Yeah, it's another business as opposed to a hobby people again, paying for the second

48:06

is give me 50 bucks. Can you post anything?

48:10

It's more like it's a hobby that pays for the garden I produce so it's like expenses and covers expenses.

48:18

We can all follow your page and we can share

48:20

Yes, yes. Yeah. And it's and it's up. It's also a network and we get a discount of me as an electrical engineer to be out and about chat with people who really need that help. So that's all those things between the band, parent normal are the type of business my day job can just fall forward. Before but otherwise, it's good. So those other things

48:45

right, wow. Yeah, like she just said, we'll all follow your page. We'll just have to spread that around and

48:51

I did that. Wow.

48:54

I shared under my business name and my toes don't forget we

 48:57

do primerica financial service much more important to watermelons tomatoes. Alright, so when you radio report, Miss he's not here. And she's not going right. You're doing it. Nick, Nick and Gary.

 49:19

And Gary. I don't know. Oh, I didn't know that. Okay,

 49:23

so what's that?

 49:29

Well, you could both be on in June. Yeah,

 49:30

you could vote you know, I think Eva Marie, and I

 49:34

thought you were gonna do the painting thing together. Yeah, I

 49:37

could be wrong. I know. I signed up. I don't know if anybody ever did this to me.

 49:41

I don't know. I don't remember seeing it.

 49:45

I can work. Next month, it is Angela Newell and Sara James. So she did not and the month after that. It is I don't see anybody on here. Do I got the right one. It's the third Tuesday. Yeah. I

don't see anybody on here for July yet. So. Okay.

 50:14
So anyway,

 50:16
you go on the website. Yeah. Well

 50:22
go to TBA connect.com and go to the member section. And go to any radio.

 50:26
Okay, like to roll into that not to go long spots are available on there. You can book it. Yeah.
Yeah.

 50:33
Like say, myself and my wife.

 50:37
Yeah, you're better off to plan ahead. Yeah, definitely. Don't make a

 50:42
rule that you can't do consecutive months. Or maybe that's to give everybody a fair chance.
But

 50:48
I don't think you'd be able to do that anyway, right now, because I think we're so

 50:52
like, Well, yeah, no problem. We I don't think that we have made that rule. The rule either, but
not something I can put on the agenda that talks about next month, but

51:02

just because there was some I don't know if there was privy to that information, but there was some conflict there in prior months with people looking two or three months. They did straighten it out but I just don't want to have that arise again.

51:15

Will you step a checklist right and go through and sit ask people like say do you want to go on but now we kind of put in everybody else's.

51:24

So used to be hard for us to get people and now we've created a monster

51:35

Yeah, explain the benefits, right. So maybe we should make a roll about like every six months or something like that. Right. I think we might get to that point anyway. But if you can make some verbiage for that I'll

51:46

put it on the website number one a quarter. One a

51:49

quarter. We Yeah, I think we're gonna get to the point where they were so booked up that like you're gonna have to book into the next quarter anyway, if you want to go. I know

51:58

they're like afraid to Gary. not

52:02

scary at all. Oh, by the way, Gary is gonna as he called me the other day and he's gonna emcee our mixer again. So he'll be there. With the speakers and

52:12

 area

 52:14
there. Yeah. That's two years. Two years in a row. Yeah. Next Tuesday.

 52:23
Oh, is that usually go five.

 52:27
Oh, yay. So and I wrote nothing but so I mentioned already we have the weekly children's bags. We'll keep going to school. It's out and I don't know when the end is the 13th. So let's see how many more weeks five weeks. I guess Sarah was prepared for

 52:52
doing it for the last five months someone's been absent.

 52:56
Five months three. And then we're gonna continue so we'll only continue through the summer for the seniors so we'll be delivering for them for once, once a month. But we have so much food I just have to tell you yesterday first time, I think it was like exciting because it was first time I've gone in three months. But we went to the food bank and I like we got everything we I said yes to everything. And so we barely will have to spend any money this month, but we got like fresh produce. So next week, the seniors are gonna get like fresh pepper. fresh peppers being what do you call that? But stuffed peppers? Yeah. They've got we've got fresh tomatoes. We've just got a lot of stuff. So I know. I'm sure Sarah said it every month while I was gone, and I'll say it again like what we do need is hands we need help and hands.

 53:53
Quick question about that. Yeah, so I know in like the Worcester area. My siblings is a completed school in Worcester. It was a requirement. To graduate to do volunteer hours. Is it worthwhile going to the schools in the area asking you if that's what they do? And asking if there's a list you need to be on if you need to give them information when you're looking for them to get those volunteer hours.

 54:14
So the school does know that we are looking for help and the school did like a group. I was at

so the school does know that we are looking for help and the school did like a group. I was at the National Honor Society.

 54:23

There's two groups there's National Honor Society, then as freshmen and sophomores they have so many hours are supposed to do to be part of like what you're talking about. And then the group that was actually with us as a private group was a little different, but similar to national honor. Society. There was five kids that came and did, like, huge organization in the room because of

 54:46

us. So and then we had kids who need like, community service out and then kids but there's people who need community service hours of help. But yeah, next we usually we meet at the mill. We work on Tuesdays from four to seven. But next week is our mixer. So I'm going to shoot out an email a poster, we're going to do something to tell you which day because we'll still have to do something next week. I just don't know what they will be able to do it. Tomorrow. Yeah, tomorrow between two and four. We will be there if anybody can help. Because we didn't have time yesterday, but I overshot to me didn't have time or room to pack any bags yesterday.

 55:27

That we really really have to do that somebody committed with a dock height box truck that could help us once a month on a Tuesday afternoon delivering food to millions. That's what part of what took so long yesterday because literally, we brought all the food and then I wasn't there but I know because my kids were there. Literally brought the food in and had to be unpacked and brought in and re palletize so

 55:52

I had him as a mentor. We don't We needed a vehicle we were gonna rent a vehicle so we needed vehicle batik offered to let us use their vehicle she actually said we should partner and figure it out because he goes there when the same day we go there so they can go grab our stuff. We can go grab it. Or we could just go together and use their box truck. But it's because the dock is in that million year old building. So what Jason Chen said yesterday that we could do might be worth it to invest in a ramp of some sort. We do we just bite instead of buying Trump by a ramp that will bring him to the height of the dock and then we'll be able to use it but yeah, so that's the that's the thing, I think is a standard sidewalk truck. So I don't know if I think it's a dark shaped font like

 56:48

those are there's two different Yeah, it's not a dark height truck. That's a truck it's like for load like

56:54

the standard battery

56:56

type. So we were hoping to take everything off with pallet jack. We had two pallet jacks yesterday but we couldn't give it to break it all down and then hand it off the truck and pile it on carts and yeah, it was craziness. So that's why it was chaos. Plus there was a lot of stuff. So we'll just keep doing what we maybe we invest in ramps I don't know figure something out. Anyway we're doing really really good everybody's like thrilled with everything they get the seniors like go around town thanking everybody and saying

57:30

thank you have never delivered to the seniors. The kids is important too. But if you've never taken five bags to five different seniors, I recommend that you divide yeah, there's the sheer utter joy of watching these little old videos and you know going oh my god, you're here with more food. Yeah, they're just so excited for that one bag of food. It's just so perfect.

57:52

You just finished the last can

57:57

with it tomorrow.

57:58

Yeah, that was awesome. Yeah.

58:02

Yeah.

58:04

For some of them, like what we bring them is like all they have for the for the whole month, like barely anything so like, that's what I was thinking was there yesterday so like, I was psyched with the vegetables but like I got milk I like old milk which will last I think a little bit longer. And

then the vegetables but like I got milk I like old milk which will last I think a while so longer and we got like a lot we have soup if canned Vegemite and coffee a lot of coffee.

 58:27

Yeah, sounds good to me.

 58:29

Yeah, it's it's so yeah. If anybody and I think most of everybody in this room. Who else can I call out though? Like almost everybody in this room has helped Matt never helped. So you should be there tomorrow between two and four.

 58:46

No No, he hasn't come in pack bags.

 58:51

Tomorrow, two and four.

 58:58

I was just kidding. Yeah, more work. Work, work, work.

 Daniel Bennett 59:06

All right. We can more years done. Dun 11 Village you're in the hot seat. So let me just say about this before. You know we brought this back to life of sorts last month. We got some support from a couple people and then they didn't show up when it came time to actually be there and and do it. So Sandy did go to the meeting. She's inspired. She thinks it's um, it's viable and that it's just not big deal. And that so you know, we're looking for so I'm going to let her tell you but we're just I just want to say well, you know, we're looking for people to at least say that they're interested if they're interested, is this something that you would use? You could see yourself using at some point for your own business. We need to get some kind of feedback going to see you know what, how it's going to work and stuff. But from there, take it away.

 1:00:07

Does everybody know what the elevens villages does that explain now so in in Riverside Park, which is our main park, side and how it started here is not here, but somehow they decided that they wanted to like replicate the 10 villages of North Grosvenor that are a Thompson and

build a build miniature buildings like like shed size buildings of something representing each of the little boroughs of the 10 villages so like there's a bank there now that was I think, Tom Ellen THOMPSON Yeah. Tom so and then and they're going to do that for all tents right now. We have three one was and they just, it was like 2019 They started building them and they will want people to be able to use them. So say you have a business. You work out of your house, but you want to like more visibility. You could rent it for a nominal fee. Like we didn't even determine what would be super like \$25 or something. And then you could post like mad that you're gonna be selling veggies there one day and like people can go to that location. You can set it up. You can book it for the whole weekend. You can pick up three weekends, but we want because we have right now there are three setup. What happened is they just sat there. I think they were used once, maybe and then they you're set there so we

1:01:30

went over a little bit last month, right? Use them

1:01:33

whenever there was a

1:01:36

daddy day.

1:01:38

Right? So But the plan is to be abused them more because the more people they have been vandalized, but a couple points and that was a lot of everyone's concerned concern, but they're not used often. And they just look like sheds that just sat there. And a couple of points are they don't have like private property. They don't have any signage there. People have known while we were there, the meeting, like the people from the community came over and said hey, you guys, and what's going on? With these buildings and nobody knows what they're being used for. And I think like it's a cute idea. I personally am excited about it. i i All it took was that one meeting and the school had the woodshop class down repent making the repairs before the Maker Faire unlike four days, he was done there. Well, we

1:02:30

talked to Mike Joyce all through the year. The Shed should have been done last fall due to weather and then closer to Thanksgiving my curiously contract contracted COVID with the kids and then waited waiting for consistent weather in the spring to get back on.

1:02:55

.....

What did they fix before the Maker Faire?

1:03:01

I think the roof was done on the third.

1:03:02

It wasn't done when I went to the Maker Faire walked through there and looked up at it.

1:03:06

It wasn't so and I had all right. So it's gonna obviously

1:03:10

need more. I know there's plexiglass in with a Windows row.

1:03:13

Oh, he was doing that to me. I didn't

1:03:15

see I didn't look at that. I didn't think about that. But I did go to the Maker Faire just because I happen to be driving through town and I was like oh that's right. So they prefer so I went and bought some soap and looked up at the roof and it was not fixed

1:03:28

and that was the thing he said he was gonna go do because you remember I tested I think we need to be on them and just every day say not every day but like on nice day say Hey Mike, can you get your class down there? Like how about what's next on your list? Like I think we need to be on them. And I don't mind doing that.

1:03:45

So I have a question. Where does the money go like they make \$25 Where does that 25 I don't know we have

1:03:52

the money would go back to the 11th village to the community because that's it. You know, technically in the long run it would be a self supporting thing. Yeah. That's what we need to do for function

1:04:05

repairs. Yeah.

1:04:06

I, I looked into

1:04:10

well, no, we've been telling people all along eventually. We want this to be self sustaining 10 villages. And the time with TVA is all along. We've known we have 500 businesses in town. And you can come Well, besides TVA, you can, you know see like sets so it would be a perfect opportunity for somebody who's got a little jewelry business or, or plants or flowers or whatever to rent this space, because we don't have a real downtown and so that's where, yeah, when we started in 2018 I get excited over this because we we don't have anything we're not platinum, right. Kim so I was gonna

1:04:53

say that once they are up and ready I have a problem. You know, I have been at vendor events and everything I could, you know, organize things once in a while. You know what I mean? As far as like shouting out and saying hey, you guys want to get together on this day and then have them pay the pay them and just kind of make sure everybody set up your army now wasn't the one that really you know,

1:05:22

like, the leader personality I like Yes. You know, I like to work but I like to.

1:05:29

So, one of the things we talked about, with the town kind of handing it over to TVA to kind of handle one of the things that we needed was somebody to be a contact person to take reservations and maintain a calendar. And obviously then, you know, take care of the money and arranging it and checking things like obviously I can help you.

1:05:48

Reservations can go through Thompson.

1:05:52

I but I think Tara said she was trying to come through us Oh, yeah.

1:05:57

Thompson REC is already set. up for that.

1:06:01

She definitely definitely know when we weren't

1:06:08

organized breakfast ate from no people.

1:06:12

So let's go steps first. Yeah, works on getting

1:06:16

back to me and I like I said, I can help with that. So besides so many connections, out of all the business aren't from Yeah, kinds of vendors in that title.

1:06:27

Well, I think you're hired. I think you need to get a complaint or have another couldn't fix the sheds. Start having meetings outside of here for this whoever's interested. But the one thing that I want to add to it is like I feel like like and you know, I mean, it's unfortunate that the person that had all these great ideas decided not to follow through but you know, the idea that it needs to be some kind of semi semi regular thing going on. You have to you have to be able to promote it because like Yeah, I mean, you think about just taking your soap down there on a random Saturday when nobody knows about it. You're gonna sit in the building all week and

1:07:07

better to get to bed because you're 500 businesses 490 or both of those kinds of those kinds of business Yeah they've not they're already going to the events that have to non in everywhere

business. Yeah, they've got they're already going to the events that have to pop up everywhere they plan on going, I'm going to Putnam today but I you know, it's

 1:07:29

like, your thing right? Would be good for stuff like that.

 1:07:33

You just look for the vendor fairs and

 1:07:37

you're not going to come to one where there's no fair where it's just too hot for you to wrap it

 1:07:41

up. Don't be really

 1:07:45

like, maybe a month and just yet you can rent this out. We're gonna have someone who sings plays guitar or wants to go play for the day. I

 1:08:02

first want her to know as a thank you to the town that he that you have two free spots and I'm saying you do x, y and z if you share a profit or something like that. You can have a free spot there first, you are free. You get people in there and you've got the momentum going.

 1:08:16

We talked about it as being a perk of TBA. Yeah, yeah.

 1:08:19

I'm excited to get them in the air. Just reach out.

 1:08:26

I'll email to your tomorrow Apple said something. But another thing people were I guess people

concerned about the vandalism. Couple things I get it and I understand but thing I noticed was there were no signage, but I'll be there was no signage. So we need to like tell people like be we need to see them being used so that they don't get vandalized and people around. But on top of that, I might got a quote to protect them even an insurance quote to protect protect them. In case there was vandalism, and it's super reasonable to add to our policy. The three units that are there right now is \$106 a year on top of all on top of our policy, and then every new one that is added it's only \$35 And that covers like perils. I don't even know. Yeah, that we were talking about.

1:09:24

We talked about how to extend Wi Fi from the tower, just right across

1:09:29

the street and put up links or something. Yeah. Even

1:09:33

though with different people.

1:09:34

We talked about the fake

1:09:39

supposed to be used for like, selling product or is it my like belief that they're gonna walk the shed Oh, yeah.

1:09:56

That's gonna be that has to be on a per person. No responsibility on us if you want to leave your product in there and lock the door

1:10:09

I don't think we would probably like I think as a business, you'd have to ensure your own good, but they wouldn't be locked but they would go

1:10:18

live but we wouldn't. We would we would have to do that in the paperwork. When they do that. There's no we're not responsible for your stuff in the face this rented for a month straight you could somebody could want to do and if somebody if somebody comes up in his has like a an idea, hey, I want to do this like I think this would be good for my business. I want to rent it for the whole summer the night let's talk about it. Let's

 1:10:49

so you remember last month somebody had the idea again to get traffic down there. The idea to have maybe a monthly flea market swap me yard sales. Yeah. Somebody said oh, we could do a farmers market. Yeah. Even starting once a month would get people used to see in these buildings plus tents.

 1:11:23

Okay, we do have to move on. Get this stuff done.

 1:11:26

Alright guys, we're gonna move on to the next topic all right.

 1:11:31

All right. Last thing about the lab and village and then we have to move on. We were gonna want to put up a you know like when you when you when a new project like when they're building a bank in town, they put up a sign in the front like a concept drawing shows you what we're because we I think that if we do that, then when people walk out there, they're not just like, Oh, these are some abandoned sheds that we can go hang out and get drunk and yeah, don't bring our girlfriend on Saturday night yeah, so

 1:12:05

that was like the that's the last point. I think we need to put that yes to put up

 1:12:11

all right, sorry, but we do have to move on. So Sandy I just you know, you want to like organize. There's some obviously some interest in the room. But um, we really stuff that we have to get done here before the end of the night is the mixer next week. Pretty much everything is in line for that right? I mean, the only thing that we're asking for, if anybody is if anybody is if anybody is interested in donating a basket for door prizes I got I ordered one. I'll be donating a barbecue themed gift basket. I don't know if there's anything else. Yeah, I don't know.

 1:12:49
Would anybody here if you could just like raise stuff.

 1:12:53
Together with some spices. There you go.

 1:12:56
A specific team pass.

 1:12:57
No, any anything you want. I just want to like shake your business card in there. We're gonna raffle them off at the

 1:13:15
end basket.

 1:13:17
When do you want them for

 1:13:18
for Tuesday night for the mixture? Bring them just bring them in a mixture with you? Yeah. Alright, so

 1:13:25
Okay. One of those things, buy tickets and drop in a bag

 1:13:29
and you'll be you'll see there's going to be like a fun game. You're going to play and you're going to earn tickets

 1:13:34

to networking game make you make you mingle with people. You can't just stand around and get drunk.

1:13:40

We are meeting that actually can't do that. A little like last year.

1:13:45

Oh, you're not coming?

1:13:46

Why have to run the I run the meeting like to

1:13:48

see Falken Yeah, and then we can stay to like 20 After six of them bogey out. Okay.

1:13:55

So yes, no basket. Yes. Yeah. Okay. All right. So who said saris use I guess to you got me right. Yeah. So I have Dan Kim Ali, Vicki and Bob and

1:14:10

she broke it up from no bad. Brian. And now is there anything else?

1:14:17

And I was gonna ask, Ah, he's not here. I was gonna ask Gary. You know, last year I got flowers from the place in Oh, Pomfret. I was gonna ask Gary if he would give us herbs to put on the table. And then at the end, we can raffle those off. But, but you can still ask, I will ask him, I will put him on the spot.

1:14:39

So I don't Other than that, like there's nothing that we need or whatever. For the mixer, everybody. We just need y'all to come. Right.

1:14:46

There's things that I need to do that I need somebody.

1:14:51

I think we need a definitive headcount of what businesses are 100% are within your power kind of be there. That's I have no sanity. You have that already. I just signed up like, like, we need to know you're going to be there. The game that we're playing depends to kind of dependent on who's going to be there for so

1:15:12

we're going to have to think a generic stuff for that. Because I there's not a lot of people it's like 20 Something people signed up. That's enough. There's some doubt 85 postcards today.

1:15:23

And I wanted I wanted to have Rs. I did initially say RSVP. I know we even put that in some of the advertisements by today. But I you know, like, in a way unrealistic. So I just hopefully people just keep

1:15:37

coming off. So it's day to day, so I've got you.

1:15:43

So if you haven't RSVP or you're pretty sure you're good to go. Just let us know that you're pretty sure you're gonna

1:15:48

I'm pretty sure.

1:15:49

I think you said that though. I think

1:15:52

that because I want to volunteer to Yes. That's a good.

1:15:56

Okay, and then we have the next mixer two months from now, on July 18. At the pitstop pub in Quinta bog, and so soon as this one's over, we're gonna start doing

1:16:10

that one. Yeah, it's there. Say what you wanted. To do first thing

1:16:15

I know that she is going to be similar because that's what she they said we'll get a bunch of hot dogs and hamburgers and start cooking.

1:16:21

Now we should have to do like seafood and then we'll have like fishing theme or a beach. The

1:16:29

one The one thing I want to say about that is that we we are obviously we're not going to start planning that till next week. But if we wait till next month, then we only have a month left. So to get going and save the day. We need to save the date card to hand out at next week's meeting. Next week's

1:16:51

mixer, you want me to do a save the date

1:16:55

save the date for the July one that we do hand to everybody at the mixer next month.

1:17:01

Got your name out of there buddy.

1:17:03

i i pointed in his direction but I put it on the proper lists.

1:17:07

Matt can you make a save the day can you read my mind? I need something hard save magnet magnets

1:17:23

What do you think? Sounds expensive.

1:17:26

Oh yeah, they first

1:17:31

read my sounds. Can you add that to the list? And then I think there's stickers.

1:17:38

I just think a card. Honestly just think a little card save the day. We don't have any much details. You can change the pitstop pub theme to be announced we want baskets, two months signs. It's on July 18 at the pitstop post just to quickly grow mixer. What are the times five to seven piano Thank you.

1:18:06

And we're gonna have parking. You know where the park is right across the street from Middletown. That road that leads to the apartment buildings. Well, there'll be a sign there but we can park along that road. We can park behind Milltown. We can park here at the library. We can park at night guard Scottsdale big holes in it. No.

1:18:25

That would be also five to seven. That will also be five to 7pm. Yes. We'll start being consistent with that that's

1:18:32

a good idea because that gives us time to go sit up and stuff. That's how Kentucky Fried Chicken guys hope this pitstop is a win a bargain over the

1:18:45

four quarters restaurant.

1:18:46

Oh yeah.

1:18:49

nobody even thinks it's Thompson out there.

1:18:51

I know we got to go and play I think we should do one of the common ones that at the common was to come up in the fall because

1:19:08

now we can use it right now. That can be sponsored by Donna uns

1:19:12

Gates is the one that said that he thinks we can use he can use that. Yeah.

1:19:17

I hear that the next mixer in the works is could possibly be Donahue landscaping. I shouldn't say that would have been here.

1:19:30

Yeah, I'll text them right.

1:19:34

started planning. So

1:19:35

1:19:35

it's that'd be good. So maybe we will have enough. It's not

1:19:38

August. It's September the beautiful Spiced Apple Cider for drinks like Oh yeah. All right. So more than apple cider with rum and

1:19:49

I could see that you guys hear meetings that are still looking for sponsors to sponsors to look for all that good stuff and golf tournaments. You guys have already reached out to Chris reach out to Chris and the QR codes on the papers. Such as last time. All right.

1:20:09

Okay. This meeting is adjourned at 6:52pm Oh yeah, draw the card Kool Aid

1:20:29

Okay then I'll check the list

1:20:40

Oh, yeah. Not officially a member yet. That's okay. Yes.

1:20:46

A name on the sign outside of the town hall on the side.

1:20:51

You're definitely gonna have to you obviously know how to communicate with

1:20:55

her. Yes.

1:20:56

What did you not do yet?

what did you not do yet:

1:20:58

She she has to fill out the application to write or do you

1:21:03

think how did I think she was a member already? Did you just tell me

1:21:07

I just told you. Yes. Okay, if we could get if everybody could just take their chair and put it back on the pile. That would be fabulous. be even better. Yes. That's right. Yeah, really do anything.

1:21:31

I took a picture of

1:21:36

a member I guess we can email them

1:21:39

a small list for the group that we have.

1:21:57

Today

1:22:09

Yeah, it's hard but you're still building colors back around my phone getting

1:22:19

frustrated and I'd hate to be wasting.

1:22:22

1:22:22

Well, what I do, I'll take I'll print on the bathroom

1:22:32

Well, I print. I print you're welcome to take that if you want but I print double sided so there is some mustard flyer with a proof I do
